2018 SKILLS ACADEMY **Academy Philosophy**

The main goal of the Skills Academy is to provide our young players with a competitive Offensive Program. Improving fundamentals such as footwork, ball handling, shooting, passing, and movement with & without the basketball are essential in becoming a better basketball player. These fundamental skills along with contests and league games are what comprise a typical session. Our goal is that each player will work hard, learn, improve, and most importantly enjoy their time at the Skills Academy.
